Software Requirements Specification

FR001	Registration & Log-In
Description	Agencies and general users can register through the platform. Agencies must be verified by the admin before posting jobs. Registered users can receive notifications and save announcements. Login is mandatory for agency access.
Stakeholder	Agency, User, Admin

FR002	Public Access (Unregistered Users)
Description	Unregistered users can browse job listings without logging in. However, features like bookmarking or receiving notifications will not be available without account creation.
Stakeholder	Public User, Admin

FR003	Post Job Announcements
Description	Verified agencies can post new overseas job announcements. Posts include job title, location, salary, deadline, and job details.
Stakeholder	Agency, Admin

FR004	Edit/Delete Announcements
Description	Agencies can edit or delete their own job announcements. Admin has the right to remove inappropriate or misleading posts.
Stakeholder	Agency, Admin

FR005	Browse & Search Jobs
Description	All users can browse and search announcements using filters such as country, job type, deadline, or agency name.
Stakeholder	User, Public, Admin

FR006	Bookmark Announcements
Description	Registered users can bookmark/save preferred job listings for quick access later.

Stakeholder	User

FR007	Notifications System
Description	Registered users will receive real-time SMS, push, or email notifications about new job posts based on their preferences.
Stakeholder	User

FR008	Agency Verification
Description	After registration, an agency will receive a verification badge once approved by the admin. Only verified agencies can publish job listings.
Stakeholder	Admin, Agency

FR009	Guides and Resources
Description	The system will have a section with guides such as how to apply, visa procedures, FAQs, and more to assist job seekers.
Stakeholder	User, Admin

FR0010	Language Support
Description	Users can switch between Bengali and English interfaces for better accessibility and understanding.
Stakeholder	User, Admin

FR0011	Comment & Query to Agency

Description	Users can ask questions or send comments directly to the posting agency via the platform.
Stakeholder	User, Agency

FR0012	View Engagement Analytics
Description	Agencies can view how many users have seen or bookmarked each job post.
Stakeholder	Agency

FR0013	Admin Controls
Description	Admin can manage users and agencies, approve or reject agency registrations, delete posts, and monitor platform activity.
Stakeholder	Admin

FR0014	Responsive Design
Description	The platform will be fully responsive, allowing seamless usage on both desktop and mobile devices.
Stakeholder	User, Admin

FR0015	Announcement Deadline Reminder
Description	Users will be reminded about job announcements nearing their deadline via notification or alert banner.
Stakeholder	User

FR0016	Job Expiry Auto Removal

Description	Expired job posts will be automatically removed from the active list to avoid confusion.
Stakeholder	Admin, Agency

FR0017	Admin Dashboard Analytics
Description	Admin will have access to a dashboard that displays system usage metrics like user counts, active jobs, and most viewed announcements.
Stakeholder	Admin

FR0018	Success Stories Section
Description	Platform will include a section to share success stories from users who secured overseas jobs through the system.
Stakeholder	User, Admin

FR0019	Smart Job Recommendations
Description	The system will provide smart job suggestions to registered users based on their background and preferences.
Stakeholder	User, Admin

FR0020	Secure Authentication
Description	All login and registration processes will use encrypted password handling with OTP or captcha verification to ensure secure authentication.
Stakeholder	User, Agency, Admin
